

Milliken Elementary School

Vision and Mission

2007-2008

Milliken Elementary School is an educational community where our teachers, staff and parents along with a supportive district come together to build a strong learning environment where we work together to provide our students with a variety of academic and social experiences that promote leadership, creativity, and individual responsibility.

We will provide our students with a safe, nurturing environment that encourages physical, cognitive, emotional, and social growth. When students leave our school they will take with them social and academic skills, knowledge, tolerance of other cultures and individual differences and values that are necessary to be successful in the 21st century.

Our students will receive a challenging curriculum that is delivered by differentiated instruction and fostering respect for all individual differences. We will use a variety of research-based, flexible strategies and programs to move our students forward to achieve higher levels of academic achievement

We will continue to foster a positive partnership between parents and teachers by motivating parents to be active participants on our educational team. We expect our parents to attend school sponsored parent information nights, attend parent teacher conferences, be actively involved with homework, be aware of grade level expectations and standards, and communicate regularly with the child's teacher. When parents are active participants in the education of their child it helps students develop into well prepared individuals who are ready to meet the demands of an ever changing world.

We look forward to having our children reflect back on their experiences at Milliken Elementary as the foundation of their success.
