Relations with District Charter Schools

The Board of Education supports efforts by parents/guardians, teachers or other interested persons or organizations interested in establishing district charter schools within the district. In accordance with state law, district charter schools are intended to:

- Expand learning opportunities for all students
- Encourage diverse approaches to learning through the use of different, innovative, research-based or proven teaching methods
- Provide parents/guardians and students with expanded choices in the types of educational opportunities that are available within the public school system
- Encourage parental and community involvement with public schools

A district charter school is a public, nonsectarian, nonreligious, non-home-based school which operates within the school district and is accountable to the district's Board of Education. It is subject to all federal and state laws and constitutional provisions prohibiting discrimination on the basis of disability, race, creed, color, sex, sexual orientation, gender identity, gender expression, marital status, national origin, religion, ancestry, age, genetic information, need for special education services, or conditions related to pregnancy or childbirth. A district charter school has standing to sue and be sued in its own name for the enforcement of any contract it is authorized by law to enter into.

Enrollment is open to any child who resides within the school district or in contiguous school districts and who meets the criteria in the district charter application. However no district charter school is required to make alterations in the structure of its facility or the arrangement or function of rooms within the facility except as may be required by state or federal law. The majority of the district charter school's students, other than online students, must reside in the school district or in contiguous school districts. Students participating in any online program offered by the district charter school are not required to reside in the district or contiguous districts and there is no restriction on the number of online students that may enroll in any online program offered by the district charter school. A district charter school will not charge tuition except as otherwise provided by law.

Each district charter school is governed by its own governing body in a manner agreed to by the district charter school applicant and the Board. An approved district charter application will serve as the basis for negotiating a contract between the district charter school and the Board. The contract must reflect all agreements

between the district and the district charter school including the waiver of local district policies and the waiver of statutory requirements or rules by the State Board of Education.

A district charter school must comply with all the state financial and budget rules, regulations, and financial reporting requirements with which the school district is required to comply.

A district charter school is responsible for its own operation including but not limited to the preparation of a budget, contracting for services, and personnel matters. Services for which a district charter school contracts with the school district will be negotiated and provided at district cost. No rent will be charged for use of district facilities that may be available for the district charter school. Any moneys received by a district charter school from any source that remain at the end of any budget year will remain in the district charter school account for use by the district charter school in subsequent years.

A district charter school may offer any educational program that may be offered by a school district, including an online program, unless expressly prohibited by its district charter or by state law.

[The following paragraph is optional. The Board can tailor this statement to address specific needs of the district.]

The Board encourages district charter applicants to develop an educational program to serve the needs of students considered “at-risk” academically as evidenced by poor performance on the state assessments, among other things.

A district charter school will begin in the fall following the date the application is approved unless another starting time is agreed upon by the Board and the applicant.

The period for which a new district charter may be approved is a minimum of four academic years. Renewal of a district charter must be for specified periods of time.

(School Boards with Exclusive Chartering Authority)**

It is the intent of the Board of Education to retain exclusive chartering authority. In doing so, the Board is responsible for approval and oversight of charter schools operating within the boundaries of the school district. The Board directs the superintendent to take necessary steps to ensure that the Board retains its exclusive chartering authority. It is the Board's understanding that once the Board obtains exclusive chartering authority this authority shall continue so long as the district complies with state law relating to fair and equitable treatment of charter schools.

PART I: RESOURCES FOR CHARTER APPLICANTS

The Charter Schools Act

The Charter Schools Act is found at Colorado Revised Statutes 22-30.5-101, et seq. The legislative declaration of the Charter Schools Act sets forth the intention that charter schools are formed:

- To improve pupil learning by creating schools with high, rigorous standards for pupil performance;
- To increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low-achieving;
- To encourage diverse approaches to learning and education and the use of different, innovative, research-based, or proven teaching methods;

Colorado State Board Rules

The Colorado State Board of Education promulgated rules regarding Standards for Charter Schools and Charter School Authorizers ([1 CCR 301-88](#)). Section 3.03 provides additional guidance related to the application process, quality authorizing, and decision making.

Colorado Department of Education – Schools of Choice Unit

The [Schools of Choice Office](#)'s primary role is to support the continued expansion of quality choices for Colorado families. The Office does this through management of the federal charter school program grant, provision of technical assistance, and gathering and sharing of best practices, tools, and resources to the charter sector.

Colorado League of Charter Schools

The [Colorado League of Charter Schools](#) can serve as a resource for charter school applicants. The League offers targeted supports in the planning, and Year 1 phases of a charter school's development. Supports include technical assistance, application review, and potential access to grant funding during the planning and start-up phases.

The Colorado League of Charter School's recommends that applicants reference the League's [Quality Standards for Developing Charter Schools](#) to access continuously updated and detailed explanations, statutory guidance, and embedded links to resources, research and much more when developing the various sections of their charter application.

Weld RE-5J School District

The Weld RE-5J School District will serve as the authorizer for the proposed school and can serve as a valuable resource to charter applicants. For inquiries related to this charter application, contact Leslie Arnold, Superintendent, at leslie.arnold@weldre5j.org.

PART II: NEW CHARTER SCHOOL APPLICATION AND EVALUATION STANDARDS

Further, statute states that "A charter school applicant cannot apply to, or enter into a charter contract with a school district unless a majority of the charter school's pupils, other than on-line pupils, will reside in the charter school district or in school district contiguous thereto" CRS 22- 30.5-104 (2)(a).

An application may be submitted by one or more individuals, or by a nonprofit, governmental, or other entity or organization. The applicant must either have in place a governing board or be able to provide a clear proposed governance structure.

Application Completeness Check

As described in statute, Weld RE-5J School District will review the application for completeness prior to initiating the application review process, which results in board action. The following Application Checklist should be used by the applicant to ensure all sections of the New School Application as well as any required supporting documentation have been completed.

The application is divided into four sections, with multiple components in each section. When submitting materials, clearly label each component in the narrative.

Relations with Education Research Agencies

The Board of Education recognizes that requests will be made on occasion by nonschool personnel and/or agencies to conduct research projects in the school that have educational and social benefit.

However, because such projects invariably involve school personnel and interrupt class instructional time, it is necessary to evaluate carefully the merits of each project before permission is granted.

All requests to conduct research shall be reviewed by a research testing review committee in accordance with this policy and accompanying procedures to determine if permission shall be granted.

If research by nonschool personnel is to involve students, complete information about the project shall be provided to parents/guardians and students in advance. No student shall be the subject of any research project without the prior written consent of the student's parents/guardians and the student himself/herself if the student is old enough to understand the process and purpose of the project. Consent shall not be necessary when the researcher merely will observe students engaged in normal activities.

All researchers shall be prepared to explain the purpose, risks, benefits, procedures, results and intended uses of the project in understandable terms. A student's/ or parent's/guardian's decision not to participate in a research project conducted by nonschool personnel shall be kept private and respected in all cases.

Any survey, assessment, analysis or evaluation of students shall be consistent with district policy and applicable law.

Relations with Education Research Agencies (Research Testing Guidelines)

1. The superintendent will appoint a research testing review committee to review research requests initiated from graduate students, professional groups or individual professionals (including school employees working on a non-district project) who wish to conduct research testing involving students in the district. The committee will have a membership which will include as a minimum one or more school employees, a licensed psychologist who is a member of the American Psychological Association, a researcher and a parent/guardian of a student attending a district school.  - d) Benefits of the resulting information.
 - e) Evaluation of possible risk to students.
 - f) Examination of parent/guardian consent forms and student consent forms when applicable.  - Any identifiable risks to participating students.
 - How the student may opt out of the research.
 - Post-research follow-up procedures.
 - That the school is neither conducting nor sponsoring the project.
