

## What is Splatmat?

Splatmat is a unique technology created of 100% polyurea. (Made out of the same tough stuff as truck bed liner!) A must have in every home! The mats are durable, reusable, non-toxic, VOC free, solvent resistant, slip / skid resistant and easy to clean (does not soak up liquids, oils or solid matters)

Our **artistic line** is based on the desire to bring art back into schools and private homes with a one of a kind new technology of an affordable reusable canvas. We would like to inspire artists all over the world by offering a new type of reusable medium to paint and draw on. Paper and canvases are often quite expensive and for the most part not reusable. We have designed a polyurea canvas and which has qualities a traditional medium cannot provide. The kids craft mat can be used to protect surfaces while crafting on or be directly drawn on. Things like paint, glue, glitter, clay, etc. can be easily removed. Use it on the table, floor or even hang it on the wall.

Our **protection line** is based on the desire to do something for environmental protection. While building, constructing, erecting or even on a daily basis, things have to be protected from: paint spills (repainting houses, crafting), oil spills (working on cars), damage from standing on things (bath tub installation), damage from dropping things (tile flooring), messes (dog prints, shoe prints)

## Our Story

Splatmat Ltd. is a small family owned company which was founded in 2017 by two people; Jen and John. We wanted to create a simple multi usable product which is environmentally safe and reusable over and over again. Now, 2 years later we were able to launch a great product with the hopes of making the world a better place!

**Splatmat**  
a Mat for all That

Kids Craft Mat

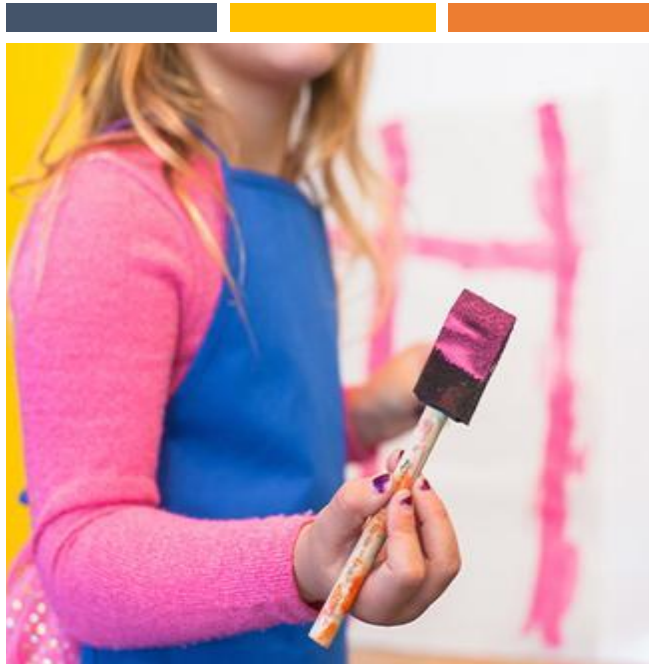

We've finally released it! This brand-new Kids Craft mat is made out of polyurea (100% elastomer) and is a protective and reusable mat. It is solvent resistant and easy to clean after use. With its' unique texture, it can be used to directly draw on or do crafts on. Place it on your table, floor or even hang it on the wall! It can be rolled up and easily stored or transported. The Kids Craft mat is impact resistant and extremely durable. A must have for any kid!

Please visit our  
website  
[www.splatmat.com](http://www.splatmat.com)

We currently have 8 different types of mats with many more to come.

We also **DONATE** and would love to help with any **FUNDRAISING** events.

If you are a **teacher** please contact us about our special discounts!

“Bring art back  
into schools”

Reusable Canvas

This reusable canvas is made out of polyurea (100% elastomer). It is translucent which makes it ideal for painting with background lighting. It doesn't matter if you use oil, acrylic or even spray paint – all of these can be easily removed if desired. If you would like to hold onto the painting you may do so as well. The reusable canvas is a must have for any artist!
