

BUILDING ON INDIVIDUAL STRENGTHS

Experience a well-rounded education that empowers every student to build on their own strengths and abilities while incorporating individual passions and talents.

PUTTING THE EXTRA IN EXTRAORDINARY

We foster a school climate that cultivates productive citizens by nurturing the whole child socially, emotionally, academically, and ethically. Positive supports and reinforcements throughout our school promote a warm social culture and accelerate social, emotional, behavioral, and academic outcomes for all students.

**“If can imagine it,
you can achieve it.
If you can dream it,
you can become it.”**

TODAY
IS A
GREAT DAY
FOR
LEARNING!

START STRONG AT MES!

We embrace students' curiosity and creativity to make learning relevant and fun. Project Based Learning empowers students to use their imagination and personal style to solve real-world challenges. Dedicated staff guides the way while teaching underlying skills and knowledge which are essential for growth. This approach builds a foundation for success and fuels a passion for lifelong learning.

GREAT IDEAS.

“The staff are wonderful. They truly care about their work and the kids. This is reflected by all of the smiling faces I see and the joy my daughter gets from attending Milliken Elementary School.”

COMMUNITY MATTERS

Our learning community celebrates and supports each other. Working in partnership with parents, local organizations, and business leaders provides rich resources and extensive encouragement. As a result, our children blossom socially, emotionally, and academically.

Student-centric learning environments enrich the mind, spark the imagination, and ignite intellectual risk taking to motivate students to become the best they can be.

CONNECTING LEARNING TO LIFE

We provide a safe, collaborative learning environment where every child can find meaning in their learning and connect with their community. Our handpicked staff members believe a quality education is about more than learning facts and figures; it's about preparing students to be well-rounded members of the community and fully prepared to thrive in a 21st century global economy.
