## ROADMAP4KIDS - RESOURCES FOR FAMILIES

LEARNING DOES NOT BEGIN WHEN A CHILD STARTS SCHOOL. BECAUSE CHILDREN DO NOT COME WITH INSTRUCTIONS, ALL OF US NEED A LITTLE GUIDANCE ON HOW TO SUPPORT OUR KIDS.

Many parents would like assistance in finding resources to help their children with their education and growth. With guidance and support, caregivers can become increasingly involved in home learning activities and find themselves with more and more opportunities to teach and guide their children.

The goal of the roadmap is to connect parents and caregivers with resources for children, prenatal-8 years of age, in Weld County so that all children grow up healthy, active and thriving in school.

The United Way of Weld County's Roadmap4Kids is available in both English and Spanish. If Spanish websites are not available for a particular resource, then they are connected to the English website.

If you cannot find a resource under a particular category, simply click on 211 Information and Referral and type in a keyword search.

We encourage you to use this resource for yourself and pass this along to your family and friends.
