

ROOSEVELT HIGH SCHOOL

SPORTS, ENTERTAINMENT & EVENT COMPLEX

Real life learning
Real life experiences

When the spotlights dim before an unforgettable show or the overheads come up on a dramatic playoff game, student work will be on full display as Roosevelt Career & Technical Education (CTE) students create an all-inclusive experience that will energize, thrill and captivate the audience.

Students from all Pathways will be immersed in developing, promoting, and hosting entertaining and impactful special events in state-of-the-art facilities. In addition to these real-world work-based learning opportunities, students will engage in foundational career pathway courses, build resumes, earn industry certificates, have the chance to earn college credits, and develop professional networks. Courses and activities vary by Pathway and are led by our highly qualified faculty members who have professional experience in the related industries — giving our students an added advantage.

ROOSEVELT HIGH SCHOOL

SPORTS, ENTERTAINMENT & EVENT COMPLEX

Providing a service to the school, community, & Northern Colorado.

Roosevelt High School's shared use facilities will provide Weld RE-5J students, the Johnstown/Milliken communities, and Northern Colorado state-of-the-art amenities for theatrical, sports and other events in a dynamic family-friendly atmosphere. Each event will be managed by our experienced staff and run by students through our Career and Technical Education Pathways.
